

## **General Instructions for the Major Evaluation - I**

1. Major Evaluation - I (Integer handling) will start from 2:00 PM on Thursday, 11 March 2021.
2. The question(s) for the evaluation will be uploaded on the Eduserver at 2:00PM.
3. It is a one-hour test. The working program should be uploaded to the designated Eduserver link by 3:00 PM.
4. A separate Eduserver link will become available after 3:00PM for late submissions and will be active till 3:15PM. Those who submit late will lose 30% of the evaluation marks.
5. No other mode of submission will be allowed.
6. Any kind of malpractice including copying of code is not permitted. If the code is found copied, negative marks will be reported (which, in turn, will affect the total sum of the Semester marks).
7. As decided and published, a Teacher/Teaching Assistant will evaluate your code which is uploaded on the Eduserver.
8. In the allotted google classroom, by using Google meet, the student has to show the demo of the program and viva will be conducted subsequently.
9. Viva will be completed one student at a time.
10. The student will be responsible for their program which is uploaded on the eduserver. Failure to explain the program internals and its working will lead to deduction of marks and, therefore, may affect your final grades.
